Professional Summary

Computer Science graduate with a strong foundation in Java, Object-Oriented Programming, Data Structures & Algorithms, SQL, and Core Java development. Hands-on experience developing Java applications using OOP, Collections, Exception Handling, and MySQL, with strong problem-solving and debugging skills. Familiar with HTML, CSS, JavaScript, Git, and GitHub, and eager to apply programming fundamentals to build reliable and maintainable software solutions.

Education

G Pullaiah College of Engineering and Technology, Kurnool

Nov 2022 – July 2026

Bachelor of Technology in Computer Science and Engineering CGPA: 8.23

Kurnool, Andhra Pradesh

Experience

Codegnan IT Solutions

June 2026 – Present

Java Full Stack Trainee

Hyderabad, Telangana

- Currently undergoing hands-on training for Java Full Stack Development.
- Learning Core and Advanced Java, along with Spring Boot and Hibernate frameworks.
- Acquiring practical experience in front-end technologies such as HTML, CSS, JavaScript, and React/Angular, with backend integration using MySQL.
- Designing and crafting projects to simulate real-world applications and enhance problem-solving and coding proficiency.

Technical Skills

Languages: Java, SQL, HTML, CSS, JavaScript

Databases: MySQL

Concepts: Data Structures and Algorithms (DSA), Object Oriented Programming (OOPs)

Developer Tools: VS Code, Eclipse

Technologies: GitHub, Git

Projects

Adaptive Anomaly-Residual Early Warning (Machine Learning)

January 2025 - March 2025

- Implemented a traffic congestion early warning system using Python, PyTorch, Flask, React, Pandas, and NumPy.
- Developed a Neighbour-Aware Temporal Convolutional Network (N-TCN) with residual-based anomaly detection, achieving 6.3% lower MAE than baseline models.
- Reduced false congestion alerts by over 35% while providing 13.6 minutes of early warning through adaptive thresholding and confidence-gated decision logic.

Ideal Wheels | (Java, MySQL, GUI)

August 2026- Present

- Built Ideal Wheels, a Java-based vehicle rental application leveraging Core Java, OOP, Collections, and Exception Handling.
- Applied Encapsulation, Inheritance, Polymorphism, and Abstraction to develop scalable modules for customer, vehicle, and booking management.
- Optimized rental workflow using Java Collections Framework and modular class design, improving code maintainability and extensibility.

Certifications / Extracurricular

Certifications

- Java -- CodeTantra
- Data Structures and algorithm -- Smart interviews
- Software Engineering basics -- IBM
- NPTEL Gold Certificate -- Understanding Incubation and Entrepreneurship , IIT Bombay
- Certified System Administrator – ServiceNow
- Certified Application Developer – ServiceNow
